Capacity-Builders, Conveners, Collaborators, and More: The Regional Development Organization’s Role in Disaster Recovery

August 12, 2014
2:00 - 3:15 pm ET
Our Mission

The National Association of Development Organizations (NADO)

To strengthen local governments, communities, and economies through the regional strategies, partnerships, and solutions of the nation’s regional development organizations.
Our Membership

National membership organization for the network of over 520 regional development organizations (RDOs) throughout the U.S.

RDOs are also known as Councils of Government, Regional Planning Commissions, Economic Development Districts, and by other names.

They promote efforts that strengthen local governments, communities, and economies through regional strategies focusing on economic development, infrastructure, housing, transportation, and regional planning.
Founded in 1988, the **NADO Research Foundation** is the non-profit research affiliate of NADO.

Shares best practices from small metropolitan areas and rural America through *training*, peer exchange, research, and other capacity-building activities.

**Focus Areas:**
- Rural Transportation
- Regional Resilience
- Sustainable Communities
- Economic Development
- Organizational Support
With support from EDA, the NADO Research Foundation provides capacity-building services to RDOs and local governments around **regional resilience to natural disasters and other economic shocks.**

These services include training workshops, peer exchanges, technical assistance, webinars, and research on best practices.

We make our resources and lessons learned available to the public—visit [www.nado.org](http://www.nado.org) or contact mmcconville@nado.org.
Today’s Webinar

• Kevin Geiger, Senior Planner, Two Rivers-Ottauquechee Regional Commission, Woodstock, VT

• Brian Schoon, Director of Development and Transit, Iowa Northland Regional Council of Governments, Waterloo, IA

• Charles Wemple, Chief Operating Officer, Houston-Galveston Area Council, Houston, TX
Webinar Logistics

Please type any questions you have for the speakers in the question box on the side panel throughout the presentation.

The webinar is being recorded and will be posted along with the PowerPoint slides on the NADO website at www.nado.org.

This webinar has been approved for 1.25 AICP CM credits.

Please contact Megan McConville at mmcconville@nado.org if you have any questions after the presentation.
Recovery from Tropical Storm Irene
A Regional Planning Commission’s Story

Kevin Geiger, AICP CFM kgeiger@trorc.org

Senior Planner, Two Rivers-Ottauquechee Regional Commission
Sometimes you’re the bug
The state had been practicing.

Flooding is our number 1 disaster and had been happening for years.
Some damage from Irene was déjà vu, and other times it was new, but predictable.
VT Regional Planning Commission roles in emergency management

- Local emergency plans (EMPG)
- Local mitigation plans (HMGP, PDM-C, FMA)
- Flood regulations (EMPG, state funds)
- GIS and E911 mapping (state funds)
- Wildfire plans (USDA-CWPP)
- State committees and EOC staffing (EMPG)
- Nuclear drills (REP)
- Grant management (HMGP, CDBG-DR)
- Business continuity plans (EDA)
The State got “extra” money through CDBG-DR
CDBG-DR/HMGP Buyouts in VT

- 136 structures total
- 79 purchased to date
- Most are 75% HMGP and 25% CDBG-DR
- 5 with CDBG-DR funds only at 75%
- 5 have brownfields issues that CDBG-DR is addressing
Regional Organizations are the right place for recovery
Recovery begins before “Recovery” begins

• Take part in training and exercises
• Write plans or participate in planning
• Build relationships and earn trust
• Prepare your office and constituents
When the water recedes, help your communities rebuild better.

- Write and Manage Grants: EDA, HUD-CDBG, EMPG, FMA, USACE, PDM-C, FMA, SRL, EPA, NRCS-EWP
- Provide or take part in training programs
- Participate in Plan revisions
- Do flood regulation updates and administration

But you must start before the disaster. You can’t just show up for the playoffs.
Capacity-Builders, Conveners, Collaborators, and More: The Regional Development Organization’s Role in Disaster Recovery

National Association of Development Organizations

August 12th, 2014
Iowa Northland Regional Council of Governments (INRCOG)
Our Role in Disaster Recovery

• 1993 Floods: Housing; Minor Infrastructure Role
• 1999 Floods: Housing
• 2008 Disasters (Tornado and Flooding): Housing; Business; and Infrastructure
  ▫ All six of our counties were State and Presidentially declared disasters
  ▫ All but 16 counties in Iowa were as well (83)
Our Role in Disaster Recovery
Our Role in Disaster Recovery
Our Role in Disaster Recovery

• General Roles:
  ▫ Conveners and Facilitators (meetings, planning)
  ▫ Grant Writers and Administrators (Rule Interpreters?)
  ▫ Planners (Mitigation and Preparedness)
  ▫ Programmers (budgeting, funding)
  ▫ Researchers and Investigators
  ▫ Information Resource or Repository
Programs and Funding Sources

- **Economic Development Administration (US DoC):**
  - Disaster Coordinators (INRCOG staff)
  - Infrastructure Projects (inflatable dam, industrial park relocation, stormwater pumps)
  - Revolving Loan Fund (RLF)
  - Comprehensive Economic Development Strategy (CEDS): Including a Disaster Strategy

- **Iowa Economic Development Authority:**
  - Jump Start Funds: State of Iowa funds
Programs and Funding Sources

- Iowa Economic Development Authority:
  - Community Development Block Grant (CDBG) Program
    - US DoHUD (HUD) funds, administered by the state
    - Housing-acquisitions, repair, reconstruction programs
    - Infrastructure-sanitary and storm sewer, water, pumps
    - Business-rent assistance, insurance reimbursement, revolving loan fund match
    - Comprehensive planning
Programs and Funding Sources

- Iowa Homeland Security and Emergency Management Division
  - Hazard Mitigation Grant Program (HMGP)
    - FEMA funds administered by FEMA Region 7 and the state
    - Housing-acquisitions
    - Infrastructure-sanitary sewer, sirens
    - Safe rooms
    - Planning-multi-jurisdictional hazard mitigation plans
Programs and Funding Sources

• **USDA-Rural Business Enterprise Grant**
  ▫ Direct grants to businesses (administered by the local EDC)
  ▫ Redevelopment technical assistance, planning, regulatory, tax increment financing (TIF)

• **FEMA/EPA**
  ▫ Planning technical assistance
    • Recovery planning-Emergency Support Function 14 (FEMA)
    • Smart growth, planning, and regulation updating (EPA)
    • “Green” concepts, sustainability, and plan integration (EPA)
Programs and Funding Sources

- **Rebuild Iowa Office (RIO)**
  - Started in response to flooding
  - Senior state staff reassigned from appropriate state departments
  - Became short term state agency (closed in June 2011)
  - Intended to bridge federal and local governments
    - Information for programs
    - Director of requests to providers
    - Meeting facilitator
    - Planning advocates
- **Iowa Smart Planning Legislation (2010)**
  - Smart Planning Principles and Plan Guidelines
  - Task Force Created (dissolved December 31, 2012)
Update on Our Progress

• Since 2008:
  ▫ Most programs and projects have been successfully closed or concluded
    • Ongoing infrastructure projects (2)
    • Ongoing housing projects (single and multi-family)
    • Revolving Loan Fund (EDA/IEDA)
    • Planning-Preparedness
      • CEDS: Disaster Strategy and refinement thereof
      • Multi-Jurisdictional Hazard Mitigation Plans
        Updates/Implementation of other plans
      • Implementing Iowa’s Smart Planning Legislation
  ▫ Presidential Declarations Since 2008 (ROI Measure?)
Lessons Learned

• Remember there is no single funding source for disaster recovery...you will probably have to access several programs, administered by several agencies, etc.
• Agency and funding source rules may be cumbersome, as they are probably not tailored for disaster recovery
• Program requirements may seem to be ever-changing (the checkbook holder makes the rules)
• Planning may become incremental
• It’s hard to fight the immediate rush to rebuild
• A new “normal” may develop in the affected community or communities
• Avoiding the entitlement mentality/hangover after a disaster
Lessons Learned

- You may have to learn to manage volunteers
- Build/Participate in your coalitions, committees, boards, councils, task forces, etc.
- Inform or update your elected officials at all levels of government regularly;
- Communicate with your members
- Think and plan regionally/Implement incrementally
  - Disasters do not follow political boundaries or jurisdictions
- Remember every community is unique in their recovery
- Don’t be afraid to ask for help (you can’t do it all by yourself)
- Be patient; Be mindful of the impact on your staff
- If you do not help your communities, who will?

Regional Councils
Roles in Recovery and Resiliency

CHUCK WEMPLE
Ike Damage
Population in Impact Area

- **Pre-Ike**
  - 2008 – 5.63 million

- **Current**
  - 2013 – 6.23 million
Storm Damage

- Over $7 billion in damage to region
- Over 200,000 homes damaged or destroyed – $2.7 billion
- $2.5 billion in critical infrastructure
Recovery Efforts

- FEMA – $1.5 billion
- HUD CDBG – $2 billion
- HUD SSBG – $90 million
- SBA – $500 million
- EDA – $40 million
H-GAC Role

- Designated by State
- Funding Priorities
- Evacuation Routes
- Regional View
H-GAC Assistance

- Debris removal contracts
- Workforce & Housing services
- Economic development & HMGP grants
- Cooperative Purchasing
- Administration of loan programs
- Social Services Block Grants
- Allocation of $2 billion CDBG DR
Data
Plans
Community Recovery
Lessons & New Ideas
