# Planning & Development:

- Pre-Incident Planning, Grants, Resourcing
  - Internal staffing
  - Proactive thought leadership. After all, you're the planning & development professionals who are focused on P & D
  - Dedicated full-time P & D resource for disaster planning, capacity building, response, & mitigation
  - Grants, grants, grants.

# Planning & Development:

- Post-Incident Planning, Grants, Resourcing
  - Use of your organization to fit into the response & recovery organization that will stand up. Fitting into the response & recovery organization is key.
  - Be a source of ideas for grants & resourcing (EDA grants, e.g.).
  - Interfacing with bricks & mortar planning organizations, engineers, & architectural planning.
  - Grants for temporary additional staffing internally & externally (embedded, forward deployed resources: DWS transitional workers; Recovery Managers for under staffed local governments)
