SMART Goals

- **Specific**
- **Measurable**
- **Achievable**
- **Relevant**
- **Time-bound**

Every goal in your CEDS should meet these criteria.

How will CEDS implementation improve your region—what “needles” will you move?
CEDS Hedging Hall of Fame

- “Foster the development of...”
- “Encourage the growth of...”
- “Support the creation of...”
- “Coordinate the XX of...”
- “Facilitate the XX of...”
"NO! Try not! DO or DO NOT, There is no try."
Call to Action

**Call to Action**

Average earnings for workers, adjusted for inflation, were lower in 2011 than they were in 1970.

Per capita income nearly doubled between 1970 and 2011, but much of that growth was from rents, investments, and transfer payments, not wages.

In short, low wages, rising cost of living, and limited job opportunities are creating a disconnect between Southeastern Vermont's perceived sense of economic security today and a future that looks anything but secured, especially for younger residents. Failure to address that disconnect will result in many Southeastern Vermonters continuing to search for economic opportunity elsewhere.

**Disconnects and Lack of Cohesion**

Throughout the CEDS development process, two themes have consistently risen to the top—lack of cohesion within the region and the insular disconnectedness of the entire region. In many ways, Southeastern Vermont can be viewed as a collection of unconnected silos of good, which if properly connected have the potential to become centers of excellence. It has also been accurately noted that the region is neither well connected within and across the region nor connected to the surrounding areas of Vermont, southwestern New Hampshire, or western Massachusetts.

Southeastern Vermont Economic Development Strategies (SeVEDS) endeavors to solve these problems of lack of cohesion and disconnectedness. There, are, however still significant barriers. Northern areas of the region are more connected East-West to Manchester and Springfield than North-South to Bellows Falls or Brattleboro. “The Valley” (Wilmington, Dover) is equidistant between Bennington and Brattleboro. Additionally, even within the region many communities of interest and organizations remain disconnected. The underlying challenge is the marked lack of a history or culture of collaboration and the extremely strong culture of looking inward to the local town or village rather than a central county or regional convening entity.

**What is SeVEDS?**

SeVEDS started in 2007 as a small group of people from across the region looking to improve broadband and cell service. After many meetings and input from stakeholders it became clear that lack of broadband and unreliable cell service were symptoms of a larger and more concerning problem: lack of economic development. In order to respond, SeVEDS incorporated as a non-profit organization and established a legal affiliation with the Brattleboro Development Credit Corporation.

**SeVEDS Mission Statement**

SeVEDS exists to reverse the economic decline of the Southeastern Vermont region.

**SeVEDS Vision Statement**

Southeastern Vermont will have an economy that generates long-term growth and prosperity and that improves quality of life and sustains our quality of place.

Today, SeVEDS is led by a twenty-member board of directors representing public, private, and non-profit organizations from across the region.

**Executive Committee**

Chair  Jenna Pugliese (Stratton Mountain)
Vice Chair  Patrick Moreland (Town of Brattleboro)
Treasurer  Drew Richards (Richards Group)
Secretary  Adam Grinold (Mount Snow Valley Chamber of Commerce)

**Standing Committees**

Post YY committee chair  Stephan Morse (Retired, Windham Foundation)
Windham Region Young Professional committee chair  Jenna Pugliese (Stratton Mountain)
Communications committee chair  Julia Sorensen (Brattleboro Retreat)
Redevelopment  Robin Sweetapple (BDCC Staff)
Workforce Development  Patricia Moulton Powden (BDCC Staff)
Board Members

Jenna Pugliese (Stratton Mountain)
Patrick Moreland (Town of Brattleboro)
Drew Richards (Richards Group)
Adam Grinold (Mount Snow Valley Chamber of Commerce)
Stephan Morse (Retired, Windham Foundation)
Lisa Sullivan (Bartleby’s Books)
Jeff Lewis (Brattleboro Development Credit Corporation)
Susan McMahon (Windham Regional Planning Commission)

Communicating Goals

In addition, SeVEDS has established a CEDS advisory committee to augment the SeVEDS leadership with even broader community representation during the process of creating and implementing the economic development strategy.

Gail Nunziata (Latchis Arts)
William Anton (The Dover School)
Rachel Selsky (Camoin Associates)
Connie Snow (Windham Windsor Housing Trust)
Tapp Barritt (Community College of Vermont)
Chris Moore (Attorney at law)

What will SeVEDS accomplish?

In 2010, SeVEDS began to uncover and understand the underlying regional economic and demographic trends impacting the region’s performance. This work, in concert with input collected from business owners, workers, and residents, resulted in SeVEDS deciding to focus on four core themes for improving the region’s economy:

- Reversing population decline.
- Increasing the number of well paying jobs.
- Improving the quality of the workforce.
- Raising household income relative to surrounding areas.

In 2011, SeVEDS adopted five objectives to guide the organization’s activities:

- Create an operational and fiscal sustainability plan for SeVEDS by December 2011.
- Improve wage parity with the surrounding labor shed.
- Increase the size and quality of the workforce.

Martin Langeveld (Strolling of the Heifers)
Jill James (Chroma Technology)
Ann Andresatos (New Chapter)
Cynthia Stoddard (Town of Putney)
Ariel Brooks (Marlboro College)
Francis "Dutch" Walsh (Town of Rockingham)
Konstantin VonKrusenstern (Brattleboro Retreat)
SMART Goals

**Goal 1: Reverse population decline**
- Increase population from 2011 baseline of 44,266 (estimated) to 46,266 by 2018.
- Increasing proportion of 25–44 year-olds from 21% to 25% of total population by 2018.
- Double the percentage of foreign-born residents in the region from 3.5% to 7% of total population by 2018.

**Goal 2: Increase the number of well-paying jobs**
- 1,054 new jobs at $46,340 and 702 new jobs at $42,130 by 2018.
  (new regional average wage goal)
- Increase wages of 4,650 jobs by $5,000 per year.
- Increase median annual income for associates/some college from $27,869 to $32,328.
- Increase median annual income for bachelor’s degree from $34,155 to $40,597.

**Goal 3: Improving workforce quality**
Increase associate degrees/some college and technical certificates among 18–24 year old age bracket by 2018.

**Goal 4: Raising household income relative to surrounding areas**
- $174M in new wages and $470M in new GDP.
- Reach regional GDP of $3.07B.
- Improve the ratio of net earned income to total income from .566 to .65.

**Objective 1: Act regionally.**

**Strategy 1.1** Implement a regional, asset-based S.M.A.R.T. CEDS and ecosystem, which expands public, private and non-profit collaboration with a common strategic vision that is annually updated.

- **Action Plan 1.1.A** Expand representation and engagement of private sector in the SeVEDS initiatives and board.
- **Action Plan 1.1.B** Institutionalize a culture of collaboration across boundaries by formalizing a Technical Working Group (TWG) as a regional Subject Mater Expert (SME) of economic and workforce development professionals and educators drawn from across the region in collaboration with BDCC and Windham Regional Planning Commission (WRC) staff. The TWG will bring together community, workforce development and planning practitioners in the region to share knowledge and opportunities to advance the pace of regional and local economic development.

**Strategy 1.2** Maintain a regional economic development planning organization, including funding, to update and guide implementation of the CEDS.

- **Action Plan 1.2.A** Prepare and maintain 3-year budgets for operations and initiatives.
- **Action Plan 1.2.B** Develop and implement a private fundraising campaign with a goal of raising $500,000 in 2015 from the private sector.
- **Action Plan 1.2.C** Commit public sector partners to multi-year investment commitment.
- **Action Plan 1.2.D** In conjunction with WRC and BDCC, support towns incorporating the CEDS strategies as appropriate in their economic development planning.

**Strategy 1.3** Create redevelopment capacity in the Southeastern Vermont region.

- **Action Plan 1.3.A** Research legal options for the creation of a SeVEDS redevelopment authority unrestricted by town or village boundaries.
- **Action Plan 1.3.B** Conduct an inventory and assemble a database of distressed and/or vacant properties with redevelopment/re-use potential.
- **Action Plan 1.3.C** Conduct a market possibilities assessment for commercial and industrial real estate.
- **Action Plan 1.3.D** In 2015, set goals for number of properties to be redeveloped and capital investment attraction.

Using the data that SeVEDS has outlined, this section will state four core goals and the six objectives that will help us reach those goals. Under each objective are a series of strategies intended to directly incorporate the region’s challenges and opportunities and which provide themes for improving the region’s economy. These goals, objectives and strategies are the metrics by which SeVEDS will measure success in the coming years and the intention is that they will be updated in 2018.
Greater Portland COG (Portland, ME)

Sense of Urgency

Our Challenges
We have the highest median age in the nation
We are the least diverse state in the nation
We are the most oil-dependent state in the nation
Our university system is not graduating students in science, technology, and engineering fields sufficient to meet the needs of our knowledge-based economy
Our region is divided by an urban versus rural dichotomy that creates silos and inefficiencies
Our businesses find it increasingly difficult to recruit qualified applicants and to expand
Our Regional Goals

“To really move the economy forward as a region, we must set goals that are ambitious, measurable, and realistic.”
Ed Suslovic, GPCOG President

Standard Indicators

Attract 10,000 people to sustain region’s historic population growth rate
Increase the pool of available workers by 1%
Increase rate of participation in the labor force by 1%
Create 8,000 new jobs
Increase regional Gross Domestic Product by 7%
Increase average wage per job to $52,000
Increase the region’s total wages by 27%
Increase per capita income by 17%
Increase attainment of Bachelor’s Degrees to 45% of the adult population
Increase access to high speed Internet to 100% coverage

Region Indicators

Attract 5,000+ people aged 25-44 from outside the region
Triple the number of adults with an Associate’s Degree
Decrease the region’s commercial vacancy rate to 7.5%
Increase annual number of new business starts by 1,000
Decrease the time it takes to permit a commercial project
Reduce the region’s dependence on foreign oil
Increase access of small businesses to the right resources at the right time
Decrease the rent-to-income ratio to the national average
Increase transit ridership by 1 million

The region’s most serious housing problem is cost burden: 37% of homeowners and 52% of renters pay more than 30% of their income for housing.

By 2030, seniors age 55 and over will comprise 38% of the region's population, compared to 28% in 2010.

While the average salary in the biotechnology sector is $100,000, less than 30 students per year graduate from the University of Southern Maine with a degree in Biology, Chemistry or Biochemistry.

“It is clear we still have work to do... we are lagging in pivotal areas including key industries, a higher tax burden and housing affordability.” Michael Bourque, Vice-Chair, Portland Regional Chamber

Transportation is responsible for almost half of the $136 billion spent on energy in Cumberland County.

While the percentage of minorities has doubled since 2000, non-Hispanic Whites account for over 90% of Cumberland County’s population.
Building a “bottom-up” CEDS

- Regional analysis—identify key issues
  - RDO research of economic conditions
  - SWOT stakeholder engagement
- Develop call(s) to action—engage & focus
- Goal formation—suggest 3 to 5 goals
  - Decide on key issues your RDO will impact
  - Estimate improvement from baseline
  - Create SMART goal
- Move to strategies/actions
CEDS Template Outline
CEDS Goal Example:

“Hold four small business workshops.”
CEDS Goal Example:

“Maintain the region’s quality of life.”
What challenge is your region facing?

What data would you need to create a compelling call to action?

Create one SMART goal and one strategy to address challenge.

Explore your best career options in the greater Charlotte Region.

Centralina Career Headlight is designed to help you explore your best career options in our region. Here, you can identify careers that match your skills and interests. Then you can explore up-to-date information about careers including salaries, job availability, and education and training options available in the region. It's easy to use. Just click on "Match My Interests" to get started.

Career Headlight answers questions that will help you be a success.
Northeast Oregon Node
Wallowa County | Baker County | Union County

Northeast Oregon

The Northeast Oregon region (Baker, Union and Wallowa counties) is the first member of the ChangeXchange NW Network, bringing finance innovation and avenues for channeling new capital into the tri-county area. Filled with mountains and valleys, the region is rich in natural beauty, cultural heritage, and entrepreneurial citizens. No strangers to pioneering, northeast Oregonians are self-reliant and also community-oriented—perfect candidates for community capital efforts.

NE Oregon Highlights
Sarah Jane Maxted
U.S. Cluster Mapping
About the Project

• National economic initiative based at Harvard Business School and sponsored by the U.S. Department of Commerce’s Economic Development Administration.

• Through a highly optimized, modern website, the project provides interactive access to:
  
  • Actionable cluster data and regional statistics covering the entire U.S. economy.
  
  • A community network for users to contribute resources and news about economic development, policy and innovation; identify partners; and share and discuss their best practices and activities.
The Industrial Structure of Regions

- The U.S. Census County Business Patterns (CBP) data give the most complete picture of the industrial structure of U.S. regions.
- The data include annual employment levels, establishment counts, and payroll totals in 1088* North American Industry Classification System (NAICS) codes for every state, MSA, and county in the U.S. 1998-2012.
- Importantly for our purposes, the CBP provides useful estimates for employment when disclosure standards force the suppression of actual industry data.

The Economic Geography of the U.S.

- The BEA Economic Areas comprehensively define the relevant regional markets surrounding metropolitan or micropolitan statistical areas in 179 regions of the U.S.

*1088 industries in NAICS2007 reporting; consolidates to 978 industries in NAICS2012.

HUMPHREY SPECIAL EVENT

MAPPING THE MIDWEST'S FUTURE:
Regional Innovation Clusters and Competitiveness

September 29–30, 2014
Cowles Auditorium
Humphrey School of Public Affairs
301-19th Avenue South, Minneapolis

Join the conversation on the economic competitiveness of the Midwest region and the industry clusters that are critical to its future economic prosperity.

Harvard Business School Professor Michael Porter will discuss how an innovative U.S. Cluster Mapping tool developed for the U.S. Economic Development Administration can be used to map industry clusters and enhance regional competitiveness. Conference topics critical to the competitiveness of the Midwest region will be addressed—transportation and logistics, knowledge creation and education, and the water-energy-food nexus.
