

The Long and Winding Road to Economic Recovery

May 19, 2020

Many thanks!

A sunset over a body of water with a city skyline in the distance. The sky is filled with dramatic, dark clouds illuminated from below by the setting sun, creating a gradient of colors from deep purple and blue to bright orange and yellow. The water in the foreground is dark with gentle ripples, reflecting the light from the sky. In the distance, a city skyline is visible, with several buildings and trees silhouetted against the bright horizon. The overall mood is serene and contemplative.

Resilience: The ability of a region or community to anticipate, withstand, and bounce back from shocks, disruptions, and stresses including:

- Weather-related disasters or hazards
- Climate change impacts
- The closure of a large employer
- The decline of an important industry
- Changes in the workforce

Not Just Bouncing Back...*Bouncing Forward*

“ Another way of looking at resilience is the ability not only to bounce back but also to “bounce forward” - to recover and at the same time to enhance the capacities of the community or organization to better withstand future stresses.”

- Urban Land Institute – *After Sandy*

A large, red, rectangular stamp with rounded corners and a white border is tilted diagonally. Inside the stamp, the words "COMING" and "SOON!" are written in a bold, white, sans-serif font, stacked vertically. The background of the entire image is a sunset over a body of water, with a sailboat visible in the lower right quadrant.
